Weighs 4.80 lbs with the tool holder

PWH-DBE-1000-40-CP

Inc. a DUAL CONTACT CAT 40 TOOL HOLDER
Weighs 5.70 lbs with the tool holder

- The PAWS Dead Blow Eliminator is an automation friendly part-seating tool developed to create more **process stability**.
- This tool **eliminates** the need to physically seat parts with a conventional dead blow hammer.
- Part parallelism is controlled by a **consistent and adjustable spring-loaded impact force**.
- Part seating now becomes part of the CNC program, leading to **less operator fatigue and shorter load times**.
- Impact energy adjustable **between 4.9 - 9.3 Joules**
